

F12 Infinite

The fully managed service that takes complete responsibility for your IT, and delivers superior cybersecurity with complete cost control

Infinite scalability • Auditable security • Work from anywhere

Unlike many so-called managed services, F12 Infinite takes full responsibility for your IT infrastructure – provisioning, management, security and support.

Our promise is that you'll never have to worry: whether it's your hardware, your apps, IT policies or support services, we ensure you'll always have a tech stack that just works.

And one that's refreshed as needed with the best emerging technologies to optimize your IT environment and support business growth.

All for a flat, per-user monthly fee. Get on with business instead of spending your days trying to manage IT issues. Get F12 Infinite.

Complete endpoint choice

You choose the best way to acquire endpoints such as desktops, laptops, monitors, and printers.

Buy.
Access all the top vendors.

Lease.
Manage your cashflow.

Rent.
Short-term and affordable.

Device-as-a-Service.
Easy 3-year lifecycle, no capital investment.

Comprehensive IT service

SOC 2 Type II and CyberSecure Canada-certified IT provider

Fixed per user monthly fee

Strong, pro-active cybersecurity

When reputation is everything, cybersecurity is non-negotiable. That's why we've developed our platform from the ground up based on the NIST Cyber Security Framework and CIS Controls.

F12 is one of a handful of SOC Type II CyberSecure Canada-certified IT providers. We use auditable data governance policies so you can prove that your procedures are compliant and that client data is controlled and protected to the necessary standards.

About F12

F12 has been creating streamlined technology solutions for more than 20 years. F12 aims to eliminate the IT treadmill of forced obsolescence and never-ending project billing with an adaptable IT platform at a predictable per-user price.
